

GAMS – Academic Price List – December 24, 2016

This price list includes the required Base Module and a number of optional solvers. The prices shown are for an unrestricted, perpetual named single user license on a specific platform.

Academic Prices		
	Problem Types	Single User License (USD)
Base Module		
GAMS Base Module (required)		640
Solvers		
GAMS/ALPHAECP ¹	MINLP	320
GAMS/ANTIGONE ¹ (requires presence of a GAMS/CPLEX and a GAMS/SNOPT or GAMS/CONOPT license, includes GAMS/GLOMIOQ)	MINLP	640
GAMS/BARON ¹ (for details see: http://www.gams.com/baron)	MINLP/NLP	640
GAMS/CONOPT	NLP	640
GAMS/CPLEX	LP/MIP/QCP/MIQCP	1,280
GAMS/DECIS ¹ (requires presence of a GAMS/CPLEX or a GAMS/MINOS license)	LP	1,920
GAMS/DICOPT ¹	MINLP	320
GAMS/GLOMIOQ ¹ (requires presence of a GAMS/CPLEX and a GAMS/SNOPT or GAMS/CONOPT license)	QCP/MIQCP	320
GAMS/IPOPTH (includes HSL-routines, for details see: http://www.gams.com/hsl)	NLP	640
GAMS/KNITRO	NLP	640
GAMS/LGO ²	NLP	320
GAMS/LINDO (includes GAMS/LINDOGLOBAL with no size restrictions)	LP/MIP/NLP/MINLP	1,920
GAMS/LINDOGLOBAL ² (requires presence of a GAMS/CONOPT license)	MINLP/NLP	320
GAMS/LOCALSOLVER	MIP/MINLP	1,280
GAMS/MINOS	NLP	640
GAMS/MOSEK	LP/MIP/QCP/MIQCP/NLP	640
GAMS/MPSGE ¹		640
GAMS/MSNLP ¹ (includes NLP solver LSGRG2)	NLP	320
GAMS/OQNLP ¹ (includes NLP solver LSGRG2 and solver GAMS/MSNLP)	MINLP/NLP	640
GAMS/PATH (includes NLP solver PATHNLP)	MCP/NLP	640
GAMS/SBB ¹	MINLP	320
GAMS/SNOPT	NLP	640
GAMS/XA	LP/MIP	640
GAMS/XPRESS	LP/MIP/QCP/MIQCP	1,280
Solver-Links		
GAMS/CPLEX-Link	LP/MIP/QCP/MIQCP	640
GAMS/GUROBI-Link	LP/MIP/QCP/MIQCP	640
GAMS/LOCALSOLVER-Link	MIP/MINLP	640
GAMS/MOSEK-Link	LP/MIP/QCP/MIQCP/NLP	320
GAMS/XPRESS-Link	LP/MIP/QCP/MIQCP	640

¹ Performance will heavily depend on the choice of the selected sub-solvers.

² Maximum model size: 2000 constraints and 3000 variables

Academic Price List: This list applies only for teaching and academic research at degree granting institutions.

General Information:

- The **GAMS Base Module** includes the GAMS Language Compiler, IDE (MS Windows only), GAMS-APIs (low-level and object oriented), CONVERT tools, EMP framework, UNIX utilities, GDX utilities, the KESTREL interface to the NEOS server, GAMS Open Source Solvers and Links (LP/MIP/MINLP/NLP), GAMS/LOGMIP (MIP/MINLP), GAMS/MILES (MCP), GAMS/NLPEC (MPEC), GAMS/SOPLEX (LP), and GAMS/SCIP (MIP, [MI]NLP) without size restrictions. All other solvers are included, but without a valid license these size limitations will apply: 300 constraints, 300 variables, 50 discrete variables, 2000 linear non-zeros, and 1000 non-linear non-zeros, additional limits for global solvers: 10 constraints, 10 variables. Please [follow this link](#) for further information.
- A **GAMS/Solver** connects the GAMS Base module to a particular solver and includes a license for this solver to be used through GAMS. It is not necessary to install additional software. A **GAMS/Solver-Link** connects the GAMS Base Module to a particular solver, but does not include a license for the solver. It may be necessary to install additional software before the solver can be used. The use of the GAMS/Solver-Links, including the Open Source Links to commercial solvers requires confirmation that the user has a valid license agreement for use of the current version of the solver library, and that the use of the solver will comply with the terms of that license agreement. To check the solver availability for a particular platform please consult the last page of this document or the [release notes](#).
- **Available Licenses:** GAMS licenses are based on the number of GAMS users within an organizational unit. We do not consider concurrent uses, but rather count the number of individual people that will use GAMS on a routine basis as part of their jobs or research. A GAMS user is welcome to install GAMS on more than one computer - assuming that only one of those computers will be used at a time.
 - **Single User Licenses** are restricted to an individual person - the license file will show the name and the email address. We provide multi-copy discounts for additional single user licenses on the same platform: 30% discount on the original price for the second copy and 50% discount for the third and following copies of the same modules, if the other single user licenses are under maintenance.
 - **Multi-User/Department (MUD) Licenses:** Multi-User/Department (MUD) licenses allow several users to run the licensed software on one or more computers with the same operating system. MUD licenses are available to departments, work-groups, or project teams where the license is centrally administered. The license file will show the name and the email address of the license administrator.

License	Users	Price
small MUD	up to 5	twice the price of a single user system
medium MUD	up to 10	three times the price of a single user system
large MUD	up to 20	four times the price of a single user system
 - **Additional Available License types:** Please contact us to discuss any special licensing needs (e.g. larger MUD, or machine-based licenses).
- **Cross Platform Licenses:** Any license can be made a cross platform (generic) license at an additional charge of 50% of a single user price for all licensed modules.
- **NLP Package:** CONOPT, IPOPTH, KNITRO, MINOS, SNOPT are discounted 25% when two or more are purchased.
- **GLOBAL Package:** ANTIGONE, BARON, GLOMIQO, LGO, LINDOGLOBAL, MSNLP are discounted 25% when two or more are purchased.
- **Maintenance and Support:** The license fee covers a perpetual license to use the software. Maintenance and support (M&S) is free during the first year after the purchase of the software. After the first year the optional annual fee for M&S is 20% of the list price for all licensed modules. M&S allows free updates, adding components, platform switching without additional charge, and multi-copy discounts on the same platform. If the user does not purchase M&S for some period and chooses to purchase it at a later date, we will charge the prevailing annual maintenance and support fees for the periods that were not covered.
- **Course Licenses:** Course licenses are provided at no charge to GAMS users with a maintained license.
- **Delivery and Documentation:** The software can be [downloaded from our web site](#) and we will deliver the license file via e-mail. The software includes the documentation in electronic form. The current version of the documentation is also [available online](#) and hard copies of the GAMS User's Guide and the Solver Manuals [can be ordered through Amazon](#).
- **Prices and Regulations:** All prices are stated in US Dollars and do not include applicable taxes and tariffs. We follow the policies and regulations of the [Bureau of Industry and Security](#).
